

We request that Physician's Release statements be provided by physicians for students returning in the following situations;

1. Students returning after any hospitalization.
2. Students returning after medical tests/procedures requiring sedation.
3. Students returning after a serious illness.
4. Students returning after sustaining injuries that require medical treatment.
5. Students returning after recovering from a contagious disease.
6. Students exhibiting the signs or symptoms of a contagious disease.
7. Other situations in which the nurse has sufficient cause to be concerned about the health status of a student.

The Physician's Release statement should include any restrictions, limitations, or special instructions clearly outlined on the form along with the date the student may return. The statement should be signed and dated by the physician.
