Preston's H.O.P.E. Playground

Monday, June 26th

10 AM-2:30PM

Cost: FREE

26001 South Woodland Rd.
Beechwood, Ohio 44122

A playground for all ages and levels of abilities and disabilities. The inspiration for this playground came from friends and family of a little boy born with Spinal Muscular Atrophy who wanted to play in a park with other children. This group found that the number of children in just Cuyahoga County alone with some type of disability was over 26,000. These were children who wanted the opportunity to play with their siblings and friends...in a place that was boundless. Many of these children met one day and dreamed together the way Preston's H.O.P.E. should be. A place where you could get up high, feel movement, play things you've never been able to, or just be quiet if you want. This playground is amazing and definitely worth the drive to Beechwood. Bring a picnic lunch and spend the day with us at this amazing playground.

RSVP by June 23rd.

Park is maintained through donations

JUNE Songs and Fingerplays to enjoy with your little one...

What a Nose!

An elephant walks like this and that.
He's terribly big, and he's terribly fat.
He's got big ears, and he's got no toes,
But goodness, gracious, what a nose!

Leo the Lion

Leo the lion is the king of the jungle
And his jaws are big and wide. (ROAR!)
Leo the lion gives a roar as a warning
That you better run away and hide. (ROAR!)

The Itsy Bitsy Monkey

The itsy bitsy monkey
Climbed up the coconut tree.
Down came a coconut
And hit him on his knee!
OWWW!
Out came a lion,
Shakin' his mighty mane,
And the itsy bitsy monkey
Climbed up the tree again!

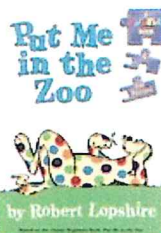

If I Were Lost

If I were lost inside a zoo
I think that this is what I'd do,
I'd say "Giraffe,
please look around,
your head so high
above the ground.
Will you point out to me
the place where you can
see my father's face."

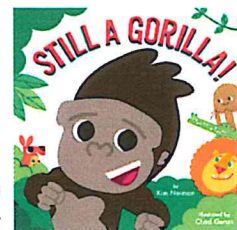

Check Out Our June Book Picks...

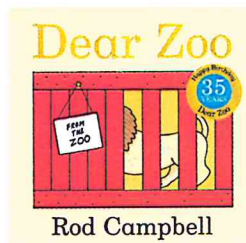

Spot, a polka-dot leopard who can change colors and even juggle his own spots, tries to convince two children that he is special enough to be exhibited in the zoo.

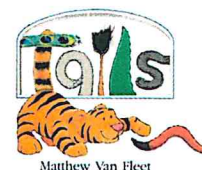

In this fun, zany picture book, Willy the Gorilla imitates other animals at the zoo, including a lion, a walrus, a billy goat, an alligator, and a kangaroo. But pretending to be something he is not never works out. What if he just tried to be himself?

A child writes to the zoo for a pet. The zoo sends a series of unsuitable pets, revealed behind flaps in the form of crates and packing cases. These animals are all sent back for different reasons, except the last one, which is perfect!

Tails are irresistible to toddlers! With this sturdy touch-and-feel board book, pokers and prodders can finally tug to their hearts content. Engaging, cartoonish animals from tigers to pangolins romp across the pages as the rhyming text bounces along. Pull tabs, lift-able flaps, tufts of fur, and even a scratch-and-sniff skunk tail provide plenty of tactile surprises. Along the way, youngsters will learn about counting, opposites, and how animals use their tails.

Why are Finger Plays and Nursery Rhymes Important?

Nursery rhymes and finger plays are brief stories that usually rhyme and are paired with finger or body motions. Encourage your toddler to join in as you try different finger plays and action rhymes with them. Toddlers find it fun and exciting to explore language in this way and it can help them build word skills and learn new words they will know and use in play. Finger plays and action rhymes help toddlers learn about rhyming and get them to listen, speak, and pair words with their actions.

Family Fun Activities for JUNE

Safari Snack mix

Ingredients:

- 1 package chocolate animal crackers
- 1 package animal crackers
- 4 cups pretzels
- 6 cups Cheerios toasted oat cereal
- 2 cups raisin or craisins
- 1 cup fruit snacks, jungle or zoo animals
- $\frac{1}{2}$ cup banana decorative candies (optional)

Directions

Let your child help you dump the ingredients into a large bowl and mix with a spoon or their hands. Serve or keep in an air tight container or portion into single serve Ziploc bags. Enjoy!

Process Art with Paint

Do you avoid painting activities with your child because you don't like the mess involved and the clean-up after. Why not take the painting activity

outside? Put your child in their swimsuit and you can use the hose to clean the paint off of your child and the surrounding area too. Give your toddler the supplies he needs and let him go to town creating.

What is process art? Process art simply means that you are letting the child lead and guide the art into it's final product. There are no preconceived ideas of how this should look and you don't ask your toddler to make a rainbow, a picture of a house, or work within any boundaries. Here's your paint, here's the paper, here's the yarn, squirt bottle, squeeze bottle, squirt toys, fly swatter, paint brushes, etc (use your imagination) and let them have at it. Process art focuses on the experience and on exploration of techniques, tools, and materials and the end product, the art, is unique and original.

Here are just a few ideas to help you get started...Try letting your child paint under the picnic table using their feet to paint, use the fence, string, or an easel to hang their paper

SLIME TIME...

First, let your child pour the $\frac{1}{4}$ cup of water into their container then have them squeeze the entire bottle of glue in. Give them a spoon and let them mix until it is smooth.

Add food coloring to get your desired color and stir. Next, add the glitter and stir again. Finally, add $\frac{1}{2}$ cup liquid starch to the mixture then stir until it begins to thicken. Once it begins to thicken they can use their hands to continue mixing it together. If it is too sticky add a little more starch. Now let your child enjoy stretching and playing with their slime. For more fun you could hide small plastic animals in the slime for them to find. This slime should last at least a couple weeks, if not more, when stored in an airtight container.

and let them experiment with gravity, use the slide and let them roll balls or cars through paint and down the slide, let them paint on a tarp and

place a piece of paper over what they painted to transfer the picture onto the paper. You can fill balloons, eggs, baggies with paint and let them throw or pop them on a piece of paper. Let your toddler fill their brush with paint and fling it at the paper. Let them experiment with different materials and surfaces too. You provide the materials and let your child figure it out from there. During process art activities many developmental domains are being practiced ...fine motor, gross motor, cognitive, language, social, and adaptive. When they are done listen to your child tell you about their art. If they have trouble expressing what they have created you could ask some leading questions to get them started.
