Playing in the Rain

The kids really need to go outside and burn off some energy but it is raining again, April showers bring May flowers they say. If it isn’t a downpour and there’s no thunder, lightning or storms headed your way. Put on your raincoats and **GO OUTSIDE to PLAY IN THE RAIN!!!**

Here are some ideas of things you can do in the rain...

- Dance
- Jump
- Stomp
- Spin
- Ride your bike
- Blow bubbles
- Play
- Write on the sidewalk with chalk
- Catch raindrops on your tongue
- Bring out some buckets to catch the rain or put creatures you find into.

All of these NORMAL activities are new and exciting in the rain! If it pouring or storming out you can try this inside game of “Don’t Step in the Lava”. First you will need some felt or construction paper in different colors. Scatter them on the floor and turn on some music. Watch them run, hop, jump, skip, etc. from color to color. You can add a bit of color learning to the mix! Shout a color and have them find a way to get to that color without stepping in the lava.

Your Child’s First Visit to the Dentist

A child’s first set of teeth, the primary teeth, are very important in helping your child chew food easily, learn to speak clearly, and look good. A child’s first dental visit is very important in launching your child on a lifetime of good dental health. Below are the answers to some commonly asked questions about that critical first visit.

**Why should I take my child to the Dentist?** Your child’s general health may be affected if diseased and broken primary teeth are not treated early. If a primary tooth is lost too soon, your child may need to wear a space maintainer until the permanent teeth erupt. Otherwise permanent teeth may come in crooked and possibly require lengthy and more expensive corrective treatment later.

**At what age should my child first see a Dentist?** It is generally recommended that children visit the dentist for the first time at age three. Some children may need to see a dentist earlier. Your dentist should be consulted. The dentist will look for decay, teach you how to properly clean your child’s teeth daily, evaluate adverse habits such as thumb sucking, and identify your child’s fluoride needs.

**How often should my child see a Dentist?** It is generally recommended that children visit the dentist every six months. Since each child’s dental needs differ, your dentist is the best one to recommend how often your child should be seen based on his or her individual needs and habits.

**What should I tell my child about seeing the dentist?** Tell your child that the dentist is a friendly doctor who will help the child stay healthy. Talk about the visit in a positive, matter-of-fact way as a pleasant new adventure.

**DON’T:** *Bribe your child into going to the dentist, *Use a dental visit as a punishment, *Let the child know if you as the adult feel any anxiety about the dental visit, *Let anyone tell your child scary stories about dental visits

**DO:** *Try to make dental visits enjoyable for your child, *Let your dentist know about any special needs your child has before dental visit, *Set a good example by brushing and flossing daily and visiting the dentist regularly

Spring is in the air! Bear, Bird, and Mouse are all excited that winter snows are melting away, but their friend Rabbit is not.
