meet with each other and establish friendships within the Stark County community. We hope to provide services and activities that the individuals enjoy and look forward to on a regular basis.

I am passionate about providing high quality care to people in the community we serve. I understand the concerns of the person and their family because I also have a daughter with special needs.

The hardest part about becoming a provider so far was going through the application process and learning all of the documentation required. We are starting slowly and working our way up so we can continue to grow. We are so glad Stark DD will be a resource for us.
