PROCUREMENT CARD PROGRAM

POLICY

The Board is committed to the principles of fiscal accountability, transparency, and ethical financial management to safeguard public funds. The procurement card program has been established in accordance to Ohio Revised Code 301.29 and with the aforementioned principles in mind to provide a more efficient, cost-effective alternative for departments and employees to make approved purchases.

Procurement cards are designed to make purchases in a manner that reduces paperwork and processing time. This program is an alternative to the traditional purchasing process and can significantly reduce the number of purchase orders and payments processed. The program will minimize or eliminate the need for the use of employee's personal funds reimbursed by the expense report. Other benefits include an expanded list of merchants from whom purchases can be made, accelerated payment to the vendor, expedited delivery of goods, reduced paperwork, lower overall transaction processing costs per purchase, and the ability to set and control purchasing dollar limits.

The procurement card program's efficiency and ease of use reduces administrative burdens on the Board but also exposes the Board to risk. Potential risks associated with the procurement cards include: inappropriate card use, internal and external fraud, inappropriate general-ledger-coding allocation, non-compliance with IRS rules, and reputational damage to the Board. This policy and procedure ensures that sufficient controls are in place to mitigate these risks.

Further, the procurement card program is not intended to avoid or bypass the appropriation of funds process, approval process (including Board approval, as applicable), or payment process. Rather, the program complements the established and existing processes. Expenditures may not exceed appropriations under any circumstances. Billings for authorized purchases made within the limits of appropriated amounts will be paid using Board funds.

Items and/or services purchased through the procurement card program are only for the official use of the Board. The card can be used for in-store purchases as well as mail, e-mail, Internet, telephone and fax orders. It is not, and under no circumstances, to be used as an ATM (automated teller machine) card, a debit card, or for cash advances. The card is not to be used for personal or non-work-related purchases.

The Stark County Procurement Card Program, as adopted by the Board of Commissioners, is incorporated in its entirety as part of this policy and corresponding procedures.

V. Making Purchases

A. Purchase orders

An encumbrance must be established for each card through a purchase order. The purchase order amount should be set based on the monetary and transaction limits established for the card and projected spending. This helps ensure that expenditures do not exceed available appropriations.

B. Original receipts

When making a purchase, the cardholder shall obtain and forward to the Finance Office the original receipt. Every effort should be made to ensure that the receipt contains the vendor's name, date of purchase, itemized description of purchase, per unit price and extended price. Finance will match and attach receipts to billing statements as part of the account reconciliation. **A cardholder will be held personally liable for missing receipts and may be required to reimburse the County for those billed purchases for which a receipt is not present or cannot be produced.**

C. Purchasing log

Each department that holds a card will maintain a purchasing log. The log records the name of the employee who signed out the card, sign out/in date, transaction date, vendor name, the merchandise purchased, dollar value of sale, how the order was placed (via email, internet, phone, fax, mail or in person). A separate line is required for each purchase.

VI. Lost or Stolen Cards

If the card is lost or stolen, the cardholder must notify the CFO immediately.
